CERTIFICATION

This is to certify that **Filipinas Dravo Corporation** has satisfactorily completed the **Provision of Technical Assistance** for and on behalf of the **Philippines Classroom Construction Initiative - Technical Support Unit**.

The Philippines Classroom Construction Initiative - Technical Support Unit was a two year program (2012-2014) funded by the Australian Department of Foreign Affairs and supporting Australia and the Philippines shared commitment to increase access to, and quality of, education for Filipino children. The program sought to strengthen the institutional capacity of the Department of Education (DepEd) to deliver an efficient, effective and sustainable classroom construction program. Filipinas Dravo Corporation provided technical and professional assistance to the Technical Support Unit through the provision of a full time Quality Assurance Engineer who worked closely with DepEd staff at central, regional and divisional levels, monitoring the quality assurance process during construction at multiple sites in Luzon. DepEd procurement and financial management systems were used to implement the program and the Technical Support Unit reviewed the procurement process undertaken prior to issuing a "No objection" before DepEd could award the contract.

This certification is issued to **Filipinas Dravo Corporation** for whatever legal purpose this may serve.
