The Pre-Bid Conference for the Bidding for the Construction of the Terrestrial of the Cable Network Corridor for the Luzon Bypass Infrastructure Project for Segments A and B was presided by BACI Vice Chairperson Atty. Edilberto R. Rebato, Jr..

1. Call to Order

There being a quorum, Vice Chairperson Rebato called the Pre-Bid Conference to order at 1:40 PM. He announced that he was presiding the meeting as Chairperson Aileen Anunciacion R. Zosa was attending a meeting in another office. He opened the meeting by introducing the BACI Members, TWG, and Secretariat, Consultant for the project, and Observers. He acknowledged the presence of the prospective bidders, mentioned their names, and welcomed them to the Pre-Bid Conference.

2. Highlights of the Meeting

2.1. Upon instruction of Vice Chairperson Rebato, Ms. Gerber Eresmas presented and discussed a brief overview about BCDA and its current projects, and the technical specifications and other salient points of the aforementioned project. She also discussed the Qualifications and Requirements for the prospective bidders qualified to bid for the project, and other matters relative to the submission of bids.

2.2. Questions from the Bidders

a. Ms. Lowella Carreon of Zeal Power inquired whether all members of Joint Venture (JV) and Consortium need to comply/submit the Single Largest Completed Contract (SLCC), List of On-going Contracts, and Net Financial Contracting Capacity (NFCC).

Mr. Mark Torres replied that at least one (1) member of the JV or Consortium should submit the SLCC and List of all on-going Contracts but emphasized that the member who will submit the SLCC should also be the member who will comply with the NFCC requirement.

JV
 [Handwritten initials and signatures]

- b. Ms. Clarizza of CommTrend inquired whether the BAC has a form for daywork schedule for materials.

Ms. Eresmas replied that the form for Daywork Schedule for Materials is included in the Bidding Documents.

- c. Ms. Menchie Agsulio of Livan Trade inquired whether they can bid for both Segments A and B.

Ms. Eresmas replied in affirmative, but emphasized that the key personnel and equipment to be assigned should be exclusive to each segment, which means that the key personnel and equipment assigned to Segment A must not be used for Segment B, and vice versa.

- d. A representative from Livan Trade inquired whether the contracts for both Segments A & B can be awarded to one bidder or Contractor, in case the same bidder wins both segments.

Ms. Eresmas replied the Contracts for Segments A & B can be awarded to one or same Contractor provided that the requirement for key personnel and equipment must be complied, i.e. Segment A must have the required key personnel and equipment exclusively assigned to it, and Segment B must likewise have key personnel and equipment exclusively assigned to it. She clarified that the two segments have separate contracts, and that the projects will commence simultaneously.

- e. A representative of Livan Trade inquired why is the 10 butt fusion machine needed if the pipes can be ordered in long length roles? He further inquired whether there is a minimum requirement for drilling lengths per shot.

(This was not clearly addressed during the Pre-Bid Conference but was addressed in Bid Bulletin no. 1.)

He likewise inquired if the drilling lengths can be done in one pulling.

Ms. Eresmas replied in affirmative, and added that one pulling for both conduits, one 40mm and one 7-way duct.

- f. The same bidder inquired whether the inspection of the required materials will be done during the Post-Qualification.

Ms. Eresmas replied that the material testing shall be conducted during implementation stage.

3. Clarifications and Reminders from BACI

- a. Deadline for Request for Clarification is at 5:00 PM on July 9, 2018. *N*

- b. The bidders should exercise due diligence in going through the bidding documents to be able to prepare their bids intelligently.
- c. The bidders should synchronize their timepieces with the computer system clock at the Central Receiving and Releasing Area (CRRA) that is set to Philippine Standard Time (PhST), and they may submit their bids ahead of the deadline to avoid the possibility of being late for submission.
- d. The personnel to be assigned to the project must meet the required qualifications, i.e. the experience of engineers, etc.
- e. Interested Bidders should coordinate with the BAC Secretariat for details on site/ocular inspection.

4. Closing

There being no other matter to discuss relative to the Bidding for the Construction of Terrestrial of the Cable Network Corridor for Luzon Bypass Infrastructure Project for Segments A & B, Vice Chairperson Edilberto R. Rebato, Jr. adjourned the Pre-bid Conference at 2:30 PM.
