(Phase 1)

1. GENERAL BACKGROUND

The Bases Conversion and Development Authority (BCDA) is mandated under Republic Act No. 7227, as amended by Republic Act 7917, to accelerate the sound and balanced conversion into alternative productive uses of the military reservations and their extensions, including the former Clark Air Base in Angeles, Pampanga; to raise funds by the sale of portions of Metro Manila Military Camps; and to apply said funds for the development and conversion into alternative productive uses of these properties.

In 1993, the Clark Special Economic Zone (CSEZ) was established by virtue of Proclamation No. 163 signed by former President Fidel V. Ramos covering a total area of 33,653 hectares, more or less, in which 4,400 hectares is the former U.S. Clark Air Base proper (Main Zone) and the remaining areas are the Subzones A, B, D and the Sacobia Resettlement Area which became part of CSEZ by virtue of Proclamation No. 805.

On 29 May 2014, the National Economic and Development Authority (NEDA) Board chaired by President Benigno Aquino III approved the Master Plan for the development of 9,450 hectares of idle land within the Clark Special Economic Zone (CSEZ) - the New Clark City also known as NCC (formerly "Clark Green City"- CGC Project). Subsequently, the House of Representatives passed Resolution No. 116 on 28 July 2014 expressing support to the NCC Project.

New Clark City Project is a flagship project of the Government of the Republic of the Philippines, which is a modern metropolis with a mix of residential, commercial, agro-industrial, institutional and information technology development as well as a community of residents, workers, and business establishments within a balanced, healthy and safe environment.

The Philippines will be hosting the South East Asian (SEA) Games in 2019 where New Clark City (NCC) was chosen as one of the major venues for the said games. In line with the preparation for the hosting of the 2019 SEA Games, various infrastructure projects are needed to be undertaken by BCDA, including the construction of one of the two major access roads – Airport (CIA) to New Clark City Access Road (Phase 1).

The Airport - NCC access road is prescribed in the Comprehensive Master Development Plan (CMDP) of NCC. To encourage prospective locators to start investing in NCC, BCDA must implement immediately the construction of the primary access roads leading to and from NCC and also the access leading to the Clark International Airport.

The Airport - NCC Access Road (Phase 1) is 5.33 kilometer long, 6-lane road with one (1) major bridge, bike lanes, pedestrian lanes, roadway lighting and linear parks that will eventually connects the access to the Clark International Airport.
